

PRESS RELEASE

BALZER'S CANADA INC. CONTRACTS CLEVOR TO PROVIDE SCHEDULING SERVICES FOR THEIR THREE ORMAT COGEN POWER PLANT PROJECTS

Saskatoon, Saskatchewan, June 11, 2007 – Clevor Technologies Inc. announces that Balzer's Canada Inc. has contracted it to provide them with scheduling services for the construction of three power plant projects they are undertaking for Ormat International Inc. & N R Green (Alliance Pipeline Ltd.) in Saskatchewan.

The project involves the construction of three power plants in three locations in Saskatchewan. Clevor will build a resource loaded optimized schedule for all the three projects and will provide periodic update and re-optimization of the schedule for the full duration of these projects. It is expected that later on Balzer's Canada Services will license Clevor's technology so that they can use this technology to serve all their customers in the future.

Ravi Maithel, President of Clevor Technologies Inc. said, "We are very happy about this contract. We believe that we will be able to assist Balzer's project team manage these projects better both by meeting tight schedules under the conditions of resource and other constraints while minimizing their cost of the project. We also hope that this will lead to Balzer's Canada licensing our technology for all their projects in the future."

Dwayne Currie, Vice President Operations of Balzer's Canada Services said, "We are expecting Clevor to help us execute this project by optimizing the deployment of our resources and enabling us to meet the very tight schedule required by our customer. This should enable us to control our costs while delivering great customer service."

About Balzer's Canada Inc. Balzer's Canada Inc. is a Canadian Company that specializes in Industrial Construction, Process Equipment & Piping Systems, Plant Maintenance, Water and Waste Water Treatment Plants.

About Clevor Technologies Inc. Clevor Technologies Inc. has developed and markets Clevor Schedule Optimizer for construction companies, maintenance operations, manufacturers and professional services companies. Clevor Schedule Optimizer represents a true breakthrough in scheduling technology. It automatically builds a schedule that "optimizes" a given business objective. These software tools use a patent-pending intelligent systems-based high performance optimization engine developed by Clevor. These solutions provide a compelling value for their users.
