### **CLEVOR & ALLIANCE PRESENT AT SCA CONVENTION**

**Saskatoon, Saskatchewan, January 28th, 2005** – Ravi Maithel of Clevor Technologies Inc. and Bryan Leverick of Alliance Energy Ltd. made a presentation at a session as part of the Saskatchewan Construction Association Inc. annual convention held on January 27<sup>th</sup> and 28<sup>th</sup> 2005 in Saskatoon. The presentation was titled “Profit and Productivity Improvements Using Schedule Optimization”.

Ravi Maithel detailed the pressures on the contractors, why scheduling is critical to the success of contractors and the features of Clevor schedule optimizer. He also demonstrated the software with typical construction projects. Bryan shared the experience of Alliance Energy in the use of this software.

Both of them answered questions. Approximately 35 people attended the session.

#### **About Clevor Technologies Inc.**

Clevor Technologies Inc. has developed and markets a suite of Schedule Optimizer software tools for construction companies, professional services companies and manufacturers. Clevor Schedule Optimizers build a schedule that “optimizes” a given business objective. These software tools use a patent-pending intelligent systems-based high performance optimization engine developed by Clevor. These solutions help build a significant competitive advantage for its users.
