### **CLEVOR CEO PRESENTS AT PMI (Regina) LUNCH**

**Saskatoon, Saskatchewan, February 25<sup>th</sup>, 2005** – Ravi Maithel, President & CEO of Clevor Technologies Inc. made a lunch time presentation to The Project Management Institute – South Saskatchewan Chapter on February 24<sup>th</sup>, 2005 at Delta Hotel. The presentation was titled, “Productivity and Profit Improvement using Schedule Optimization”.

The presentation included the importance of scheduling, the problems with the present practices of project scheduling and the features of the schedule optimization solution developed by Clevor Technologies Inc. It also described the results obtained for different data sets as well as by customers and a real life demonstration of the software solution.

He also challenged some of the old concepts like Critical Path and Rule Based Scheduling because the new technologies offer better solutions.

Approximately 80 people attended the presentation and a lively questions and answers session followed.

#### **About Clevor Technologies Inc.**

Clevor Technologies Inc. has developed and markets a suite of Schedule Optimizer software tools for construction companies, professional services companies and manufacturers. Clevor Schedule Optimizers build a schedule that “optimizes” a given business objective. These software tools use a patent-pending intelligent systems-based high performance optimization engine developed by Clevor. These solutions help build a significant competitive advantage for its users.
