

PRESS RELEASE

CLEVOR NAMED A FINALIST FOR SABEX AWARD

Saskatoon, Saskatchewan, April 5th, 2005 – The *Celebrate Success! 2005* Committee announced that Clevor Technologies Inc. was named a finalist for the 2005 Sabex award in the category of Innovation.

This award is given to a business that has introduced and demonstrated the application of knowledge or the ability to create new forms and/or ways of doing things that provide a competitive advantage. This may include the effective involvement of people or new technology to successfully compete in the ever-changing market place. The judges take into consideration the relative size, nature of the business and the market conditions.

All the award recipients will be announced at the *Celebrate Success! 2005* Gala on May 10th.

Ravi Maithel, President & CEO of Clevor Technologies, Inc. said that Clevor is happy to receive this recognition. He thanked the present customers of Clevor for placing their trust in the company and its solution.

About Clevor Technologies Inc.

Clevor Technologies Inc. has developed and markets a suite of Schedule Optimizer software tools for construction companies, professional services companies and manufacturers. Clevor Schedule Optimizers build a schedule that “optimizes” a given business objective. These software tools use a patent-pending intelligent systems-based high performance optimization engine developed by Clevor. These solutions help build a significant competitive advantage for its users.
